

Statistics

Statistics is the segment of the program where you can run numerous types of reports regarding your personal sales data, data for your office or company, or for MLS as a whole. The Statistics menu is broken down into the two following sections, along with the sub-report types housed in each.

NOTE: You cannot obtain statistics data for agents not a part of your office/company. See the Hint at the end of this section for more information.

Inventory Reports

Inventory Reports allow you to track your personal inventory data, your office's, or company office's (if applicable) inventory data. Below, are listed the four available reports.

Broker Inventory Report

The Broker Inventory report tracks agent and office listing activity and sales volume. The report provides both listing details and summary statistics, including transaction sides, cooperative sales, and volumes. This report will also include data from prior offices.

My Listings to Expire

The My Listings to Expire report allows you to forecast which of your listings will expire in a time period specified.

New Listing

The New Listing report lists details for individual listings new during the time period specified and indicates whether the listings were extended or not.

Sales Activity by Property Type

This report presents sales summary statistics (totals, volumes, averages) for both a specified period and year to date, so you can see both current activity and compare that activity to another time period.

Agent Listing and Sales Summary

This report provides summary statistics (sides, volume and percentage) for listings and sales by agent during the time period specified.

Production Report

This report lists all sold listings for the specified period.

Statistical Reports

Statistical Reports allow you to run reports to gather data based on a wide number of variables of your choosing. Below, are listed the seven available reports.

Statistical Summaries

Statistical Summaries lists statistics for sales, including breakdowns for co-listings and list/sale, in addition to stats for new, expired and other statuses during the time period specified. The report displays: Total, Total List Volume, Median List Price, Average List Price, Total Sold Volume, Average Sold Price, and Sold Price to List Price ratio. This report can be run for Company/Office/Agent and the entire MLS.

Terms

The Terms report allows you to view and print the Terms of Sale in a date range. The report displays: Number of Sales, Total Percent, Total List Price, Average List Price, Average Sold Price, and Sold Price to List Price ratio. This report can be run for Company/Office/Agent and the entire MLS.

Market Penetration

The Market Penetration report allows agents to view their listing and sale activity compared to their office or compared to the MLS as a whole for a specified date range and property type. The report displays: New, Pending, and Sold information comparisons. When the report is run for an Agent, the report can compare the Agent to the Office, Company or the entire MLS. When the report is run for an Office, the report can compare the Office to the Company or the entire MLS. When the report is run for a Company, the report can compare the Company to the entire MLS. This can also be filtered by things like Municipality, County, Price Range and others. If you select Market Share, the report will rank Company/Office/Agent (s), based on Listings, Sales, Listings and Sales, or Listings or Sales. You can choose how many Company/Office/Agent (s) you would like the report to contain.

Market Comparison

The Market Comparison report allows agents to compare their productivity year over year. The report displays: Number of New and Sold listings, Dollar Volume of New and Sold listings and Median Price. This report can be run for Company/Office/Agent and the entire MLS.

Days on Market

The Days on Market report summarizes days on market statistics for your sales. The report displays: Number of Sales, Terms of Sales, Average Days on Market, and Average Days to Close. This report can be run for Company/Office/Agent and the entire MLS.

Price Range Statistics

The Price Range Statistics report summarizes your sales by price range. The report will display Active, Pending, Sold, Withdrawn, and Expired activity in a date range. The report displays: List Price Range, Number of Listings, Highest Price, Median Price, Lowest Price, and Average Days on Market. This report can be run for Company/Office/Agent and the entire MLS.

Managerial Statistics

The Managerial Statistics report summarizes the agent's or office's sales and listing activity, as well as provides market share data for your selected date range. For Current Active Listings the report displays: Number, Average List Price, and Median List Price. For Sold Listings the report displays: Average Sale Price, Median Sale Price, Average List Price, Median List Price, Percent of List Price to Sold Price, Number of Units Sold, and Dollar Amount Sold. This report can be run for Company/Office/Agent.

Inventory Reports

Broker Inventory Report

The Broker Inventory Report will generate a “snapshot” view of all member and office listing activity that falls within a selected time frame. To run the report, click on **Statistics** in the main menu tree and click on **Inventory Reports**. Now select **Broker Inventory** from the report list.

Inventory and Production Reports		
Click a report name to run the report		
Report		Description
Broker Inventory	 View Sample	Broker Inventory This report tracks agent and office listing activity and sales volume. The report provides both listing details and summary statistics, including transaction sides, cooperative sales, and volumes.

On the Broker Inventory Report screen, enter the date range for which you want to run the report and the report type, and then click **Next**. If you are using an office account, select the member(s) that you want to include in the report from the list. If you want to run the report for all members, choose that option by selecting the radio button.

You may also choose to filter this report using a Quick Search. There are three report types:

1. **Standard Report Totals** – generates a basic list breaking down first by office and then member.
2. **Show Company Office Totals** – generates totals first by the company and then by all offices below.
3. **Member Totals Only** - will not show totals for the office or MLS – only for the member.

The **Million Dollar Club** option will calculate any sales for which a Member is both the listing and selling agent will count as double volume. If the Million Dollar Club is not turned on, those sales will only be counted at their regular volume.

MLS Listings to Expire

The My Listings to Expire Report will present all your listings that will expire within a set time frame. Choose to run the report by a set time frame of days or a date range by checking the radio button next to the option that you want. This report is generated in the form of the Search Results page.

If using an office account, select the member(s) for which you wish to compile the list. To run the report for all members, click the radio button next to that option. If you want to compile the report for all members, click the radio button next to that option. Click **Next** to proceed.

All of the matching listings will be displayed in the Search Results screen.

New Listing Report

The New Listing Report will generate a list of all your new listings in the MLS within a selected time frame. To run the report, enter your desired date range. Select whether the date range applies to the Listing Date or the date the listing was entered into FlexMLS. Check whether you would like to view the End Date and click **Next**. If you are using the office account, select the member(s) to include. If you want to compile the report for all members, click the radio button next to that option. Click **Next** to proceed. Your listings will be displayed on the screen and can be printed.

NOTE: Co-Listing Member is not an option for our MLS.

Production Report

The Production Report can be run, for a specific time period and property types, as an agent to get that agent's production, or run as an office to display the office's data as a whole, or to run individual agents under that office. The report will start with the office's general production organized by property type, with columns for listing member or selling member totals. Next, it displays the same information for Metro MLS as a whole. Last, is the Member Production Report section, which displays the individual list numbers, property addresses, sold date, property types, and if it was sold as a listing member or a selling member. . The agent may also choose to include prior office activity.

If you run the Terms Report for Company/Office/Agent, the report will break down the sale by Listing Agent/Office and Selling Agent/Office.

Market Penetration

The Market Penetration Report allows agents to view their listing and sale activity compared to their office or compared to the MLS as a whole. When the report is run for an agent, the report can compare the Agent to the Office, Company or the entire MLS. When the report is run for an Office, the report can compare the Office to the Company or the entire MLS. When the report is run for a Company, the report can compare the Company to the entire MLS. If you select Market Share, the report will rank Company/Office/Agent (s), based on Listings, Sales, Listings and Sales, or Listings or Sales. You can choose the number of Company/Office/Agent (s) you would like the report to capture.

Market Comparison

The Market Comparison Report allows you to view and print a comparison of activity from one year to another. The Report displays: Number of New and Sold listings, Dollar Volume of New and Sold listings and Median Price. This report can be run for Company/Office/Agent and the entire MLS. On the Report Generation screen, enter your desired reporting options – be mindful about what you would like for your report to include. After making your desired selections, click **Next**.

NOTE: You can only use consecutive years in this report; for example, you cannot compare 2001 to 2013.
